Daltonganj - 822102

## INTRODUCTION

“Work for an organization which provides me the opportunity to improve my skills and knowledge to growth along with the organization objective.” “To work in an organization which helps to explore and an environment to grow.” “To gain new experience and to utilize my interpersonal skills to achieve these goals.”

## KEY SKILLS

Technical	MS SQL, Advanced Excel, MS Word, PowerPoint
Operating System	Windows
Visualization Tool	MS Power BI
Soft Skills	Time management, Communication, Adaptability, Problem-solving, Teamwork skills, Creativity, Hardworking, Quick Learner

## CORE QUALIFICTION

- Data analysis/ MIS Reporting
- Master Data Management
- Data formatting
- Content Management
- Knowledge Management
- Data Analytics and Reporting

## CERTIFICATION

- Did Course and Certification on MS SQL Developer from Intellipaat.
- Did Course and Certification on MS power BI desktop from Intellipaat.
- Did Course and Certification on Advance Excel desktop from Intellipaat.

## SQL PROJECTS

### 1. Relational Database Design

Worked on converting a relational design that enlists various users, their roles, user accounts, and their statuses into different tables in SQL Server and insert data into them. Having at least two rows in each of the tables, I must ensure that I have created respective foreign keys.

#### Overview

- Define relations/attributes.
- Define primary keys.
- Create foreign keys.
- Inserting data into each table with at least two row using SQL Queries.
- Deleting all the data from each of the table.

### 2. Querying a Large Relational Database

In this project, I work on downloading a database and restoring it on the server, then query the database to get customer details like name, phone number, email ID, sales made in a particular month, increase in month-on-month sales, and even the total sales made to a particular customer.

Steps to restore a backup in our database using SQL Server Management studio.

- Open SQL Server Management Studio and connect to the target SQL Server instance.
- Right-click on the Databases node and select Restore Database.
- Select Device and click on the ellipsis (...).
- In the dialog, select Backup devices, click on Add, navigate to the database backup in
- The file system of the server selects the backup and click on ok.
- Now, click on ok

## Overview

- Table basics and data types.
- Various SQL operators.
- Various SQL functions.
- Get all the details from the person table including email ID, phone number and phone number type.
- Get the details of the sales header order made in May 2011.
- Get the details of the sales details order made in the month of May 2011.
- Get the total sales made in 2011.
- Get the total sales made in the year 2011 by month order by increasing sales.
- Get the total sales made to the customer with FirstName='Gustavo' and LastName='Achong'.

## EDUCATION

Institution	Stream	Year	%age Marks
NPU	Bachelor's In computer application	2020	71.8%
Jharkhand Board	Class XII	2017	66.6%
CBSE, Delhi	Class X	2015	8.6 CGPA

## PERSONAL DETAILS

Father's Name : Girendra Kumar Tiwari  
Mother's Name : Shobha Tiwari  
Wife Name : Shreya Pandey  
Date of Birth : 25<sup>TH</sup> August 2000  
Marital Status : Married  
Present Address : H no 93, Sudna , Gyatri Mandir Road, Palamu, Daltonganj , Jharkhand – 822102.  
Permanent Address : H no 93, Sudna , Gyatri Mandir Road, Palamu, Daltonganj , Jharkhand – 822102.  
Languages Known : English and Hindi.  
Hobbies : Travelling, Music, Cricket, Cooking, Gardening.

The above information provided by me is true and have all the relevant documents to authenticate the same.
